Other (type):	Quantity: _____		
Other (type):	Quantity: _____		
Other (type):	Quantity: _____		
Other (type):	Quantity: _____		
Other (type):	Quantity: _____		

IMPORTANT INFORMATION

Please review the following information before submitting your application:

Formal design requirements

If formal design is required, the lead time for installing electric facilities may be longer. Formal design is required if one or more of the following conditions are met:

- Greater than 400 amps
- 3 Phase
- If it requires more than one pole to be set
- Easements/permits required
- Length of service over 200 feet

If a formal design is required:

Our engineering department may contact you to discuss and/or schedule a site visit meeting to discuss the location of the meter(s), the service line route, the load sheet and easements. If an easement is required, you are responsible for providing the deed to the engineer that scheduled your site visit.

Installation site-ready checklist

The date that your site is ready determines when construction can start. The site is ready when the following criteria have been met:

- Site must be within 6" final grade
- Basement/foundation in and backfilled
- Clear 8' wide path
- Electric service install-meter socket(s) and riser installed
- Clearly mark/stake the location of all private underground utilities located on your property

Construction schedule estimated processing time is 4-6 weeks pending weather conditions, road restrictions, permitting requirements, property site ready and required permits have been obtained.

Meter sets and inspections

CenterPoint Energy may not install and/or connect meter(s) at time of service installation. Before we can connect you to CenterPoint Energy's natural gas and/or electric system, a house line inspection from your city or county may be required.

A credit check and deposit may also be required before meter(s) are connected.

If you are in an area that requires an inspection (see list below), you are responsible for contacting the county or city to set up the inspection. The inspector will contact CenterPoint Energy when the inspection is complete. If your area does not require a county inspection, contact CenterPoint Energy at 800-990-1930 to have a meter(s) installed once your plumber and/or electrician have completed their work. The following Indiana counties require an inspection:

- Posey County
- Spencer County
- Vanderburgh County
- Warrick County

If your requested service installation date or site ready date changes, please contact CenterPoint Energy at 800-990-1930.

Facilities

By submitting this form, you are indicating that you have read and agree to comply with the following statement:

Prior to service installation and/or performance of improvement request by CenterPoint Energy, **you, as the property owner, are responsible for locating and marking all existing private buried facilities including sprinkler systems and septic facilities ("Facilities") at the Service Address provided above.** By submitting this application, you agree to indemnify, defend, hold harmless and release CenterPoint Energy and its respective shareholders, directors, officers, administrators, managers, employees, servants, agents successors and assigns from or against any injuries, including death, damages, fines, claims, lawsuits, penalties or expenses, including reasonable attorneys' fees, arising from your failure to locate and mark all of your facilities at the service address provided above. This indemnification obligation shall not apply to the extent liability is caused by the negligence or wrongdoing of CenterPoint Energy. Please note that CenterPoint Energy is responsible for having utility facilities located at your address prior to our installation of gas and electric facilities.

Checking order status

To check the status of your request you may contact us via email at NewService@CenterPointEnergy.com or by phone at 800-990-1930.

Programs and services are operated under the brand CenterPoint Energy by Southern Indiana Gas and Electric Company d/b/a CenterPoint Energy Indiana South.
