GAS TRANSPORTATION PROVISIONS

The following Gas Transportation Provisions are applicable to Customers entering into Transportation Service contracts:

- (1) Transportation Customers shall be subject to the Nomination and Balancing Provisions in Appendix E, except as provided in paragraph (2) of this section.
- (2) Transportation Customers may become members of a Pool pursuant to the provisions of Rate 180, Pooling Service. If Customer designates a Pool Operator to be responsible for managing its gas supply, the nomination and balancing provisions pursuant to Appendix E shall not apply to Customer; rather, they shall apply to the Pool Operator. For purposes of calculating daily and monthly imbalances, the daily and monthly usages of all Customers within the Operator's Pool will be combined into a single Pool usage total, which will be matched against the Pool Operator's daily or monthly deliveries to its Pool. All nomination and balancing charges, including Cashout charges, penalties, and like charges shall be billed to the Pool Operator. Customer shall remain individually responsible for interrupting or curtailing deliveries or usage or matching deliveries with usage, when ordered to do so by Company pursuant to this Tariff for Gas Service. In the event of default of the Pool Operator, Customer shall remain liable for its portion of applicable charges, as determined by the Company after review of all available facts and circumstances including documented deliveries and consumption. A Transportation Customer that has returned to Non-Pooling Transportation Service from Pooling Service may not return to Pooling Service for a period of two months unless expressly authorized by Company.
- (3) For purposes of permitting daily meter reading, Company shall, where available, install, provide, and maintain cellular equipment and service on Customer's Premises. Until such time that cellular service is installed, or where cellular service is otherwise unavailable, Customer shall install, provide, and maintain on the Premises at a location specified by Company such telephone equipment and service as required for Company's gas measurement equipment and related communications equipment. If Customer's telephone line is deemed inadequate or unreliable for purposes of providing measurement data, and cellular service is unavailable, Company may require Customer to provide a dedicated telephone line in order to continue Transportation Service under this Rate Schedule.

Company shall post preliminary Customer usage throughout the month on its Gas Tracking System ("GTS") as soon as practicable the day after the end of the Gas Day, and the Company will endeavor to do so by 10:30 a.m. Central Clock Time. Preliminary Customer usage will be posted on a best effort basis and even in the absence of such posting, shall not be considered reflective of the actual usage to be used for billing purposes.

If the measurement equipment fails to register or registers incorrectly, Company will estimate as accurately as is practicable, the quantity of gas delivered. Customer will pay for Gas Service provided based on such estimate(s), in accordance with the terms and provisions of this Tariff for Gas Service.
