Customer shall notify Company not less than 24 hours in advance of the quantity of gas it elects to have Company inject into storage for its account. The quantity to be injected in any day may not exceed the Maximum Daily Quantity without prior approval from Company. Company shall not be liable for any inability to inject gas in its facilities as requested by Customer.

Customer may request withdrawals from storage for any day. However, in any day such withdrawal shall not exceed, without specific prior approval by Company, the Maximum Daily Quantity specified by contract with Company. Company shall not be liable for any inability to withdraw gas from its facilities as requested by Customer.

- (2) In no event shall Company be obligated to incur any costs for additional facilities necessary to provide Storage Service under this Rate Schedule. Nonetheless, in the event Company elects to incur such costs, the costs of any additional facilities, including but not limited to any necessary telemetering equipment, that in Company's sole judgment are required or must be incurred by Company to provide Storage Service, shall be the sole responsibility of Customer, and shall be payable in full prior to the initiation of Gas Service. In addition, such costs shall include all applicable taxes.

APPENDIX B **NORMAL TEMPERATURE ADJUSTMENT**

The billed amount for each Rate 110, 120, and 125 Customer shall be subject to a Normal Temperature Adjustment (NTA) for each bill rendered during the seven winter billing periods commencing with Customer's first meter read date after October 14th.

The NTA adjusts each Customer's monthly billed amount to reverse the impact on margin recovery caused by non-normal temperatures during the billing period, as measured by actual heating degree day variations from normal heating degree days.

NTA COMPUTATION

The NTA for each Customer's monthly billing shall be computed as follows:

NTA = NTA Therms x NTA Margin

NTA THERMS

The NTA Therms usage for each Customer to which the NTA Margin shall be applied is computed as follows:

$$\text{NTA Therms} = \frac{[\text{Actual Usage} - \text{Base Load Usage}]}{\text{Actual Degree Days}} \times [\text{Normal Degree Days} - \text{Actual Degree Days}]$$

NTA MARGIN

The NTA Margin shall be the tail block rate of the Distribution Charge for the applicable Rate Schedule.

BASE LOAD THERMS

Base Load Therms shall be Customer's average daily therms usage for the previous summer months (months of July and August) multiplied by the number of days in the billing period.

For Customers whose Base Load Usage cannot be accurately determined (e.g., new Customers without two months of summer usage history), an estimated Average Daily Therms shall be used.

NORMAL AND ACTUAL DEGREE DAYS

Normal Degree Days for each Customer's billing period shall be those utilized by the Commission for purposes of determining Company's current base rates.

Actual Degree Days for each Customer's billing period shall be taken from the actual heating degree days reported each day by the National Weather Service.

APPENDIX B **NORMAL TEMPERATURE ADJUSTMENT**

Normal Degree Days for the NTA are determined by the days included in each Customer's billing period. Normal Degree Days in a leap year (a year consisting of 366 days) differ from those in non-leap years (years consisting of 365 days). Applicable Normal Degree Days tables for leap and non-leap years, as determined in Company's most recent general rate case, follow.

The following steps are used to determine Normal Degree Days in the NTA calculation:

1. Determine the days associated with Customer's billing period.
 - i. If the billing period includes days occurring in a leap year, the Normal Degree Days table for LEAP YEAR is used.
 - ii. If the billing period includes no days occurring in a leap year, the Normal Degree Days table for NON-LEAP YEAR is used.
2. From the appropriate table determine the total Normal Degree Days (NDD) for the current billing cycle, beginning with the day following the previous read date and ending with the current read date for the current billing period. This total represents the Normal Degree Days for the NTA calculation for the current billing period. Note: Actual Degree Days appear on the Company's website.

Company may require Pool Operator to allocate its Daily Pipeline Nomination to specified city-gate pipeline delivery points based on minimum and maximum allocation percentages, which Company may revise from time to time, based on operational considerations. Company may decline to accept Pool Operator's Daily Pipeline Nominations or deliveries that do not comply with these city-gate allocation percentage requirements.

Pool Operator must provide the notice specified above prior to each change in Pool Operator's Daily Pipeline Nomination by submitting to Company the nomination, via the Company's EBB, by no later than 1:00 p.m. Central Clock Time ("CCT") of the workday previous to the start date of the Daily Pipeline Nomination. Company may accept nominations submitted after the deadlines specified above within its reasonable discretion. Until Pool Operator submits the required nomination, Pool Operator's nominations of daily quantities shall be zero. The nomination shall include information as required in Company's EBB. Unless otherwise permitted by Company, the Nomination Period shall not exceed thirty-one days.

Pool Operator shall cause the shipper to provide Company with a written statement detailing Pool Operator's actual deliveries under Pool Operator's Daily Pipeline Nomination during each Nomination Period by no later than one day following the end of the billing month.

Pool Operator shall pay a Nomination Error Charge of \$0.49 per Dekatherm on the quantity difference between Pool Operator's Daily Transportation Nomination and the confirmed deliveries under Pool Operator's Daily Pipeline Nomination for each day such difference occurs.

Pool Operator shall be assessed a City-Gate Allocation Non-Compliance Charge of \$0.99 per Dekatherm on the quantity difference if the Pool Operator's Daily Transportation Nomination is less than the minimum or greater than the maximum city gate allocation requirements, which are calculated as the minimum or maximum city gate allocation percentages multiplied by the Pool Operator's Daily Transportation Nomination.

DAILY BALANCING PROVISIONS

Pool Operator shall be obligated to balance its Pool Customers' total usage ("Total Daily Usage") with the aggregated total daily deliveries of Pool Operator-Owned Gas by the pipeline, as adjusted to reflect Company's system line loss percentage as specified in Appendix F ("Total Daily Deliveries"). A Daily Imbalance Quantity shall exist when the Total Daily Usage is greater than or less than the Pool Operator's Total Daily Deliveries.

APPENDIX I **ENERGY EFFICIENCY RIDER**

APPLICABILITY

The Energy Efficiency Rider shall be applicable to all Customers served under the following Rate Schedules:

- Rate 110 – Residential Sales Service
- Rate 120 – General Sales Service
- Rate 125 – School/Government Transportation Service

DESCRIPTION

The Energy Efficiency Rider shall be the sum of the following two components as described below, for each applicable Rate Schedule:

- (1) Energy Efficiency Funding Component (EEFC)
- (2) Sales Reconciliation Component (SRC)

Energy Efficiency Funding Component (EEFC):

The EEFC shall recover the costs of funding energy efficiency efforts throughout Company's Service Area. These efforts may include, among others, energy efficiency programs, customer education programs, and weatherization programs designed to benefit Customers under the applicable Rate Schedules.

The estimated annual costs, plus related revenue taxes, shall be divided by projected sales volumes to determine the applicable EEFC. The actual costs recoverable and the actual costs recovered under the EEFC shall be reconciled, with any under or over recovery being recovered or returned via the EEFC over a subsequent twelve-month period.

Sales Reconciliation Component (SRC):

The SRC shall recover the differences between Actual Margins and Adjusted Order Granted Margins for the applicable Rate Schedules.

Actual Margins are defined as monthly margins for each Rate Schedule, prior to the SRC adjustment. Adjusted Order Granted Margins are defined as the order granted monthly margins for each Rate Schedule as approved in Company's most recent general rate case as adjusted to reflect the change in number of customers from the order granted levels. To reflect the change in number of customers, order granted margin per customer is multiplied by the change in the number of customers since the like month during the test year, with the product being added to the order granted margins for such month.

Company shall defer the calculated differences between Actual Margins and Adjusted Order Granted Margins for subsequent return or recovery via the SRC. Annually, Company shall reflect in a revised SRC the accumulated monthly margin differences. Margin differences from Residential Customers eligible for recovery in the EER annually are capped at 4% of adjusted order granted margins attributable to Residential Customers (as approved in Cause No. 45447) applicable to the previous year. Any actual margin differences from Residential Customers in excess of the 4% SRC cap (up to \$1.5 million per year) will be deferred for future recovery either in a future EER filing, with the annual residential SRC amount still subject to the 4% cap, or in a future rate case.

The accumulated monthly margin differences to be included in the SRC, for each Rate Schedule, shall be divided by projected sales volumes for each Rate Schedule to determine the applicable SRC. Projected and actual recoveries by Rate Schedule under the SRC are reconciled, with any under or over recovery being recovered or returned over a subsequent twelve-month period.

APPENDIX I **ENERGY EFFICIENCY RIDER**

ENERGY EFFICIENCY RIDER RATE

The applicable Energy Efficiency Rider Rate (the sum of the EEFC and SRC) shall be applied to each therm of metered gas usage each month.

<u>Rate Schedule</u>	<u>(A) Energy Efficiency Funding Component</u>	<u>(B) Sales Reconciliation Component</u>	<u>(A) + (B) Energy Efficiency Rider Rate</u>
110	\$0.01444	\$0.02650	\$0.04064
120/125	\$0.01444	\$0.00528	\$0.01972

All rates are given in \$/therm

APPENDIX J

SCHOOL/GOVERNMENT NOMINATION AND BALANCING PROVISIONS

VOLUME RECONCILIATIONS

Annual Reconciliation:

Company will identify imbalances on an annual basis for each School/Government Supplier's Pool through calculating the difference between the Pool's Delivered Supplies and its Pool's Usage. Calculation of imbalances will be based on Supplier's monthly deliveries to its Pool reduced by the Unaccounted For Gas Percentage as set forth in Appendix F and compared to the Pool's total usage.

School/Government Supplier will eliminate any annual imbalances via either:

- (1) payment from Company for Over-Delivery Imbalance Quantities, or
- (2) payment from School/Government Supplier for Under-Delivery Imbalance Quantities

- (7) **Operational Curtailment.** Curtailment resulting from operational restrictions or insufficient distribution system capacity to supply Gas Services to Company's Gas Service Customers.
- (8) **Plant Protection Level.** The minimum quantity of Gas Service for Firm Curtailment Customers required by Customer to prevent endangering the health or safety of personnel, or to prevent extensive damage to Customer's facilities, equipment, or other property. If, in the Company's sole discretion, Curtailment in a specific geographic area is required to maintain Gas Service, Company may curtail or interrupt Gas Service in those specific geographic areas.
- (3) Next, as determined by Company, Firm Curtailment Customers' purchases of Company-supplied gas shall be curtailed to a daily quantity equal to their respective Plant Protection Levels. If, in the Company's sole discretion, Curtailment in a specific geographic area is required to maintain Gas Service, Company may curtail or interrupt Gas Service in those specific geographic areas.
- (4) Next, Rate 145, 160, and 170 Non-Pooling Transportation Customers' transportation gas quantities on Company's system shall be limited to Customers' respective Plant Protection Levels, and the remainder of their delivered supply shall be diverted to use for Company Supply. If, in the Company's sole discretion, Curtailment in a specific geographic area is required to maintain Gas Service, Company may curtail or interrupt Gas Service in those specific geographic areas.
- (5) In the event further Curtailment is required to maintain Gas Service, Company shall be entitled to curtail or interrupt Gas Service to any Customer. 27. FRAUDULENT USE OF GAS

When the Company detects fraudulent or unapproved use of gas, or the Company's regulation, measuring equipment, or other service facilities have been tampered with, the Company may reasonably assume that the Customer or other user has benefited by such fraudulent or unapproved use of such tampering. The Customer or other user shall be responsible for payment of the reasonable cost of the Gas Service used during the periods such fraudulent or unapproved or tampering occurred or is reasonably assumed to have occurred and for the cost of field calls, investigation, and the cost of effecting repairs necessitated by such use and/or tampering. The Company may assess a Fraudulent Gas Usage Charge as set forth in Appendix C per occurrence for such field calls and repairs.

Under such circumstances the Company may, subject to any provision of Commission Rule 16 to the contrary, disconnect service without notice and the Company is not required to reconnect the service until a deposit and all the above enumerated charges are paid in full. The Company shall not be liable for damage of any character caused by or resulting from a violation of these General Terms and Conditions.

AFFILIATE AND COST ALLOCATION GUIDELINES

AFFILIATE GUIDELINES

The OUCC and Indiana Gas Company, Inc. and/or Southern Indiana Gas and Electric Company ("Utility") (collectively "Parties") have negotiated in connection with Cause No. 41465 the following Affiliate Guidelines to govern the relationships between the Utility and its Affiliates. By agreement, the Guidelines have been modified in connection with Cause No. 37394GCA50S1 ("GCA50"). The Parties agree that these guidelines are intended to be enforced by the IURC, and they shall become effective upon their approval by the IURC. The OUCC and Utility may, through negotiation and agreement, jointly petition the IURC for modifications to these Affiliate Guidelines, in which case they would have the burden of proving any proposed change is in the public interest considering all relevant factors, including, but not limited to, price of service and the impact on competition. If either the OUCC or Utility desires changes to these Affiliate Guidelines and is unable to obtain agreement from the other party for such changes, then the party desiring changes may petition the IURC for the desired changes and bear the burden of proving that such changes are in the public interest. However, such petitions shall not be filed without first attempting to obtain the agreement of the other party. Subject to the following sentence, anyone else seeking a change to these Guidelines may also petition the IURC and would bear the burden of proving that the proposed changes are in the public interest. However, any such petition shall not be filed without the Utility and the OUCC first being notified and given a reasonable opportunity to consider the proposed change. The Commission may also make modifications to these Affiliate Guidelines on its own motion, after notice and hearing.

These Affiliate Guidelines should be read in conjunction with the "Cost Allocation Guidelines" developed by the OUCC and Utility and also approved by the Commission in Cause No. 41465. Subject through March 31, 2007 to the Settlement Agreement and ARP approved in GCA50 and Cause No. 42233, the Affiliate Guidelines and the Cost Allocation Guidelines govern all current and future affiliate relationships between the Utility and its Affiliates, with the limited exception that the Commission may approve an Affiliate contract that differs from these Guidelines if the Utility files a petition requesting an exception from the Guidelines and satisfies its burden to demonstrate that such contract is in the public interest considering all relevant factors, including, but not limited to, price of service and the impact on competition.

One purpose of these Affiliate Guidelines is to establish standards for procurement on competitive terms to govern the Utility's procurement of goods, services, assets, and other utility resources. Such procurement "on competitive terms" (as defined herein) shall be done with the objective of obtaining the best terms available for the Utility and its customers. The only exception to these procurement standards is the provision of "shared corporate support and administrative services" such as corporate treasury services and human resources. These services may be shared with other companies/affiliates with the CenterPoint Energy organization. The pricing of those services to the Utility shall be based on cost and be in accordance with the Cost Allocation Guidelines. See the definitions section below for a complete definition of "shared corporate support and administrative services".

AFFILIATE AND COST ALLOCATION GUIDELINES

DEFINITIONS

The definitions below apply to terms used in the Affiliate Guidelines and the Cost Allocation Guidelines.

“Affiliate” “Affiliate” means a person that is an affiliated interest for purposes of I.C. 8-1-2-49 or that is otherwise found to be an “Affiliate” by the Commission or otherwise is an “Affiliate” under Indiana Law.

“Person” “Person” includes the following: (a) individual, (b) corporation, regardless of type or state or country of incorporation, (c) unincorporated association, (d) company, whether limited liability or otherwise, and (e) business trust, estate, partnership, trust, two (2) or more persons having a joint or common economic interest, and any other entity.

“Commission” “Commission” means the Indiana Utility Regulatory Commission.

“IURC” “IURC” means the Indiana Utility Regulatory Commission

“OUCC” “OUCC” means the Indiana Office of Utility Consumer Counselor.

“Holding Company” “Holding Company” means the parent company, CenterPoint Energy, Inc., or its successor in interest of Indiana Gas Company and/or Southern Indiana Gas and Electric Company.

“Competitive Terms” “Competitive Terms” means the best terms reasonably available in the competitive marketplace at that time (including the terms available from the Utility itself under efficient operation) giving due consideration to both price and non-price terms such as quality and reliability. If the Utility itself can provide the services at the lowest cost with comparable quality and reliability, then that cost shall be considered the “competitive terms.”

“Shared Corporate Support and Administrative Services” “Shared Corporate Support and Administrative Services” means the following types of functions/services that the Utility may share with other companies/affiliates within the CenterPoint Energy organization: (1) accounting and corporate treasury services; (2) human resources; (3) information technology and communications services; (4) corporate directors and officers services; (5) legal services; (6) insurance and claims; (7) billing; (8) customer call center services; (9) facility and fleet management; and (10) environmental services. (See Specific Affiliate Guidelines Section 2, Items J, L, and O related to “Shared Corporate Support and Administrative Services.”)

“Capital Costs” “Capital Costs” means the costs associated with obtaining the financial capital required to provide physical assets such as office buildings, computers, or office equipment.

“Non-Regulated” “Non-Regulated” means not regulated by the Indiana Utility Regulatory Commission (IURC). “Non-Regulated” also applies to products or services over which the IURC has declined its jurisdiction.

“Similarly Situated” “Similarly Situated” means having general characteristics in common such as belonging to the same rate class or operating in the same or similar industries. A utility affiliated gas or power marketer would, for example, be considered similarly situated to other non-affiliated gas or power marketers.

AFFILIATE AND COST ALLOCATION GUIDELINES

GENERAL AFFILIATE GUIDELINES

- A. No Cross-Subsidies.** The Utility shall not subsidize Affiliates or non-regulated activities.
- B. Separation of Regulated and Non-Regulated Operations.** The separation of the Utility's regulated operations from the Holding Company's non-regulated business operations and Affiliates is necessary to prevent potential cross-subsidies. To the maximum extent practicable, the Utility shall separate its regulated operations from its own, its Affiliates, and its Holding Company's non-regulated operations. Instances where such separation does not exist must otherwise be in compliance with the Affiliate Guidelines and the Cost Allocation Guidelines.
- C. No Discrimination.** The Utility shall not discriminate in favor of or otherwise give preferential treatment to its Affiliates, its Affiliates' customers or the Utility's own non-regulated activities.
- D. Comparability of Service.** The Utility shall provide comparable service to all similarly situated marketers, customers, or other entities, regardless of affiliation.
- E. Procurement on Competitive Terms.** With the exception of "shared corporate support and administrative services" (defined above) the procurement of goods, services, assets and other resources by the Utility shall be on competitive terms, consistent with the public interest and in compliance with these Affiliate Guidelines and the Cost Allocation Guidelines. The Utility may procure services from an Affiliate but such procurement must be done on competitive terms (defined above). The Utility's procurement process shall also comply with General Guideline C above (i.e., No Discrimination). The pricing of "shared corporate support and administrative services" to the Utility shall be based on cost and be in accordance with the Cost Allocation Guidelines.

AFFILIATE AND COST ALLOCATION GUIDELINES

SPECIFIC AFFILIATE GUIDELINES

1. Affiliates shall be charged for all costs incurred on their behalf. These costs shall be appropriately and reasonably allocated and shall include, but not be limited to, those associated with shared facilities, general and administrative support services and other corporate overheads.
2. The Utility shall process all similar requests for service in the same manner and within the same reasonable time period for all similarly situated customers, marketers, and other entities, regardless of affiliation.
3. The Utility shall not give preference to or discriminate in favor of its Affiliates, its Affiliates' customers, or its own non-regulated activities in matters including, but not limited to, the allocation, assignment, release, or transfer of rights to intrastate or interstate capacity, use of Utility distribution facilities, storage on system, rights to storage off system, or in the sale of gas.
4. The Utility shall not condition or tie any agreement to provide Utility service to any agreement relating to a service to be provided by an Affiliate.
5. To the maximum extent practicable, Utility employees shall function separately and independently from employees of Affiliates and those engaged in non-regulated activities including, but not limited to, gas marketers, power marketers, and other service providers.
6. The Utility may not, through tariff or otherwise, give any Affiliate or an Affiliate's customer or any non-regulated activity a preference or an advantage with respect to the transportation of gas including, but not limited to, the movement or delivery of gas on its distribution system, the administration of customer contracts, scheduling, nomination, balancing, metering, storage, standby service, curtailment policy, or billing/invoice disputes.
7. The Utility shall apply tariffs and their provisions and all other aspects of Utility service on a consistent and non-discriminatory basis to all similarly situated marketers, customers, and other entities regardless of affiliation.
8. Any discount or rebate for Utility service offered by the Utility to an Affiliate or an Affiliate's customer shall be offered on a non-discriminatory basis to all similarly situated marketers, customers, or other entities, regardless of affiliations. If the Utility waives a penalty or fee related to Utility service for an Affiliate or an Affiliate's customer, it shall waive such penalty or fee for similarly others on a non-discriminatory basis.

AFFILIATE AND COST ALLOCATION GUIDELINES

9. The Utility shall not give preference to or discriminate in favor of its Affiliate or its Affiliate's customers in its provision of information. This includes, without limitation, information related to the sale or marketing of energy or energy services to existing or potential new customers and information related to the availability of transmission, distribution, or storage capacity. Specific customer information shall be made available to affiliated or unaffiliated entities only upon consent of the customer or as otherwise provided by law or Commission rules or orders, except that customer name and address information may be provided to energy marketers or energy service providers.
10. The Utility may share information technology and communications services with other companies/affiliates within the CenterPoint Energy organization. However, such sharing of information technology and communications services shall not be done in a manner that violates Specific Guideline 9 above regarding the non-discriminatory provision of information. The Utility shall take whatever steps are necessary to fulfill this requirement such as, for example, the implementation of electronic "firewalls" or other measures to control access to Utility information.
11. The Utility shall not speak on behalf of its Affiliates or give the appearance that it speaks on behalf of its Affiliates. The Utility Affiliates shall not speak on behalf of the Utility or give the appearance that they speak on behalf of the Utility.
12. Customer call handling shall be performed on a non-discriminatory basis without respect to affiliations of the customer or affiliations of the customer's marketer or energy service provider. If a customer requests information about alternative sources of supply, the customer service representatives shall offer to provide a list of all alternative suppliers known to be serving customers in the same rate class as the customer making the inquiry, except those suppliers excluded by mutual agreement of the Utility and the OUCC. Such a list may include Utility Affiliates, but the Utility customer service representatives shall not promote or endorse services offered by an affiliate. To ensure compliance with Specific Guidelines 9,10, 11, and 12, the guidelines for handling of customer calls and information have been set out in writing and attached as Appendix A-1.
13. The Utility's Affiliates shall not trade upon, promote, or suggest that they receive preferential treatment as a result of affiliation with the Utility.
14. The Utility and its Affiliates shall not participate in joint advertising. An Affiliate may, however, reference the fact of its affiliation with the holding company. Such public references shall not: (a) make the Affiliate appear to be part of the Utility, or (b) suggest that the Affiliate or the Affiliate's customers will have any advantage as a result of the affiliation.
15. If the charges for Utility services are combined with charges for non-regulated energy services into a single bill, such a combined bill format will be made available on a non-discriminatory basis to non-affiliated entities that provide energy services in the Utility's service territory.
16. The Utility and its Affiliates shall maintain separate books and records, which shall be available for Commission inspection consistent with Indiana law.

AFFILIATE AND COST ALLOCATION GUIDELINES

17. The OUCC and its agents shall have access to officers and employees and access to the books and records of the Utility and its Affiliates as reasonably necessary to ensure compliance with these Affiliate Guidelines, the Cost Allocation Guidelines and Title 8 of the Indiana Code. If disputes arise between the OUCC and Utility regarding the reasonableness of the timing or scope of requested access to Affiliate and Utility books and records, if not resolved by the parties, then such disputes may be presented to the Commission through use of an alternative dispute resolution process as agreed upon by the OUCC and Utility. During this process, Utility shall bear the burden of demonstrating the unreasonableness of the OUCC's request. In seeking a resolution of access disputes, the parties agree that time is of the essence, and the intent of the parties is that the Commission's review of such disputes will be facilitated by the parties so that the review can be as expeditious as possible.
18. All complaints relating to these Affiliate Guidelines and the Cost Allocation Guidelines, whether written or verbal, shall be submitted to the general counsel of the Utility or the Utility's highest-ranking legal employee ("general counsel"). The general counsel shall acknowledge to complainant such complaint within five (5) working days of receipt. The general counsel shall conduct a preliminary investigation and prepare a written statement of the complaint which shall contain the name of the complainant and a detailed factual report of the incident or incidents, underlying the complaint, including all relevant dates, companies involved, employees involved, and the specific claim. The general counsel shall communicate the results of the preliminary investigation to the complainant in writing within twenty (20) days after the complaint was received including a description of any course of action to be taken. In the event the Utility and the complainant are unable to resolve the complaint, the complainant may file a complaint with the Commission. Any complaint filed with the Commission before it was filed with the Utility under this section shall be held in abeyance while the procedures outlined here are followed. The general counsel shall keep a log of all complaints for a period of not less than three (3) years and shall keep such a log available for inspection by the IURC, OUCC, and complainant.
19. All transactions between the Utility and its Affiliates shall be in accordance with a written contract filed with the IURC pursuant to I.C. 8-1-2-49. The Utility shall maintain sufficient records of all such transactions for at least three (3) years so as to allow for a complete and thorough audit.
20. The Utility shall meet with the OUCC to review all proposed Affiliate contracts. Upon filing of Affiliate contracts with the IURC, copies of such contracts will be delivered to the OUCC. Affiliate contracts shall be governed by Indiana law and these Affiliate Guidelines and the Cost Allocation Guidelines. To the extent the Guidelines contain provisions or commitments that go beyond what would otherwise be required under Indiana law, the Guidelines shall control. The OUCC reserves its rights to challenge such contracts at any time.

AFFILIATE AND COST ALLOCATION GUIDELINES

PROCEDURES FOR FILING AFFILIATE CONTRACTS

All Affiliate contracts shall be filed with the IURC and be in conformance with these Guidelines, the Cost Allocation Guidelines and Indiana Law. Such contracts shall be available for public inspection, except to the extent that information is protected from public disclosure under Indiana law. These Affiliate Guidelines in no way affect the IURC's duties and/or authority under Indiana law to inter alia investigate such contracts, hold public hearings related to such contracts, and/or disapprove such contracts. These Affiliate Guidelines also in no way affect the OUCC's right to inter alia initiate investigations of such contracts.

ANNUAL INFORMATIONAL FILING

The Utility shall file annually with the Commission and provide copies to the OUCC the following information concerning the Utility's Affiliates and its non-regulated activities.

1. The names and business addresses of the officers and directors of each Affiliate that has transacted any business with the Utility during the previous twelve (12) months. For each such Affiliate, the Utility shall also provide the following in its annual informational filing:
 - a. The Affiliate's name and a description of the Affiliate's primary line(s) of business and a description of the nature of the Affiliate's business with other non-affiliated entities.
 - b. A schedule detailing and summarizing the nature and the dollar amounts of the transfers of assets, goods, and services between the Utility and the Affiliate that took place during the applicable twelve-month period.
2. A listing of all contracts currently in effect between the Utility and the Affiliate indicating the nature of the transactions, the date the contract became effective, and the contract's expiration date.
3. A corporate organization chart, which shows the parent holding company, the Utility, its Affiliates, and their relationships to one another.
4. A description of the methods used to identify, value, and record transfers of assets, goods, and services between the Utility and its Affiliates.
5. A description of the methods used to allocate federal and state income tax expense, payments, and refunds to the Utility and its Affiliates.
6. A description of sharing of personnel between the Utility and its Affiliates during the twelve-month period.
7. A log of complaints maintained by the Utility under section 18 of Specific Affiliate Guidelines.
8. A listing and descriptions of all non-regulated activities engaged in by the Utility, including the amount of revenues and expenses generated by each such non-regulated activity.

These annual informational filings shall commence on the date thirty (30) days after the effective date of the Commission's approval of these Affiliate Guidelines and shall repeat thereafter at the end of the Utility's fiscal year. These annual informational filings shall not serve or be interpreted as a pre-approval process.

AFFILIATE AND COST ALLOCATION GUIDELINES

COST ALLOCATION GUIDELINES

The OUCC and Indiana Gas Company, Inc. (“Utility”) (collectively “Parties”) have negotiated in connection with Cause No. 41465 the following Cost Allocation Guidelines to govern the allocation of costs between the Utility and its Affiliates. The OUCC retains all of its rights and authority to dispute the reasonableness of and/or recovery of all Utility costs, including those to which these Cost Allocation Guidelines may be applicable. Mere allocation of costs under these guidelines does not predetermine the reasonableness of rate recovery of such costs. The Parties agree that these guidelines are intended to be enforced by the IURC, and they shall become effective upon their approval by the IURC. The OUCC and Utility may through negotiation and agreement, jointly petition the IURC for modifications to these Cost Allocation Guidelines, in which case they would have the burden of proving any proposed change is in the public interest considering all relevant factors, including, but not limited to, price of service and the impact on competition. If either the OUCC or Utility desires changes to these Cost Allocation Guidelines and is unable to obtain agreement from other party for such changes, then the party desiring changes may petition the IURC for the desired changes and bear the burden of proving that such changes are in the public interest. However, such petitions shall not be filed without first attempting to obtain the agreement of the other party. Subject to the following sentence, anyone else seeking a change to these Cost Allocation Guidelines may also petition the IURC and would bear the burden of proving that the proposed changes are in the public interest. However, any such petition shall not be filled without the Utility and the OUCC first being notified and given a reasonable opportunity to consider the proposed change. The Commission may also make modifications to these Cost Allocation Guidelines on its own motion, after notice and hearing.

These Cost Allocation Guidelines should be read in conjunction with the “Affiliate Guidelines” developed by the OUCC and Utility and also approved by the Commission in Cause No. 41465. Subject to Section H of the Settlement Agreement in Cause No. 41465, the Affiliate Guidelines and the Cost Allocation Guidelines govern all current and future affiliate relationships between the Utility and its Affiliates with the limited exception that the Commission may approve an Affiliate contract that differs from these Guidelines if the Utility files a petition requesting an exception from the Guidelines and satisfies its burden to demonstrate that such contract is in the public interest considering all relevant factors, including, but not limited to, price of service and the impact on competition.

The following Cost Allocation Guidelines govern the allocation of costs associated with “shared corporate support and administrative services” which have been defined in the Definition section of the Affiliate Guidelines and which may be shared with other companies/affiliates within the CenterPoint Energy organization. By their nature, these costs are associated with functions and operations that are shared and not separate. The allocation methods should apply to those Utility Affiliates who share corporate support and administrative functions in order to prevent subsidization from the regulated Utility and ensure equitable cost sharing among the regulated Utility and its Affiliates. The pricing of “shared corporate support and administrative services” to the Utility shall be based on cost and be in accordance with these Cost Allocation Guidelines.

AFFILIATE AND COST ALLOCATION GUIDELINES

DEFINITIONS

See the definitions section of the Affiliate Guidelines for the definitions of terms used in the Affiliate Guidelines.

GUIDELINES

1. No Cross-Subsidies. The Utility shall not subsidize Affiliates or non-regulated activities.
2. The Utility shall maintain and utilize an accounting system and records that identify and appropriately allocate costs between the Utility and its Affiliates.
3. The Utility's costs for jurisdictional rate purposes shall reflect only those costs attributable to its jurisdictional customers.
4. The Utility and all Affiliates that share corporate support and administrative services shall maintain documentation including organizational charts, accounting bulletins, procedure and work order manuals, or other related documents, which describe how costs are allocated between regulated and non-regulated services or products.
5. Affiliates shall be charged an appropriate and reasonable allocation of all shared corporate support and administrative costs incurred on their behalf. These costs include, but are not limited to, those associated with shared facilities and other corporate overheads.
6. To the maximum extent practicable, shared corporate support and administrative costs should be accumulated and classified on a direct cost basis for each asset, service, or product provided.
7. The shared corporate support and administrative costs that cannot be directly assigned per item (6) above, should to the maximum extent possible be allocated to the Utility and its Affiliates and to the service or products to which they relate using relevant allocators which best reflect or consider the cost causative characteristics of the product/service being provided.
8. Where allocation/assignment pursuant to (6) and (7) is not practical, general allocation factors shall be utilized to allocate all remaining costs between the Utility and its Affiliates and between service and product lines ultimately provided by the Utility and its Affiliates.

AFFILIATE AND COST ALLOCATION GUIDELINES

9. The allocation of capital costs between the Utility and its Affiliates (incurred in the provision of “shared corporate support administrative” services) shall be based on the following:
 - a. The cost of capital used for such allocations shall equal the Utility’s weighted average cost of capital as last found by the Commission.
 - b. Depreciation shall be charged on a straight-line basis. Depreciation rates used for such allocations shall be consistent with the accepted useful life of the asset(s) and in accordance with generally accepted accounting principles and regulatory accounting requirements, as applicable.
10. The Utility and its Affiliates shall maintain separate books and records, which shall be available for Commission inspection consistent with Indiana law.
11. The OUCC and its agents shall have access to officers and employees and access to the books and records of the Utility and its Affiliates as is reasonably necessary to ensure compliance with the Affiliate Guidelines, the Cost Allocation Guidelines and Title 8 of the Indiana Code. If disputes arise regarding the reasonableness of the timing or scope of requested access to Affiliate and Utility books and records, if not resolved by the parties, then such disputes may be presented to the Commission through use of an alternative dispute resolution process as agreed upon by the OUCC and Utility. During this process, Utility shall bear the burden of demonstrating the unreasonableness of the OUCC’s request. In seeking a resolution of access disputes, the parties agree that time is of the essence, and the intent of the parties is that the Commission’s review of such disputes will be facilitated by the parties so that the review can be as expeditious as possible.
12. The cost assignment/allocation methodologies discussed herein are applicable to shared corporate support and administrative services. The Utility’s procurement of all other goods, services, assets, and other resources shall be on competitive terms, consistent with the public interest and in compliance with the Affiliate Guidelines and the Cost Allocation Guidelines.

AUDIT REQUIREMENTS

Each year an independent auditor appointed by the OUCC shall do an audit. OUCC staff members may assist the auditor. The purpose of the audit shall be to ensure that the Utility complies with these Cost Allocation Guidelines. Any violations of the Cost Allocation Guidelines shall be noted and explained in the auditor’s report, a copy of which shall be provided to the Utility, the Commission, and the OUCC. CenterPoint Energy shall annually contribute up to \$50,000 toward the auditor’s costs/fees.

Customer Call Handling Process

Outline of Customer Call Handling Guidelines and infrastructure

In order to provide for the operation of an efficient, high quality call center operation that handles customer calls and information in a manner consistent with the terms of the Affiliate and Cost Allocation Guidelines, this outline has been developed. The intent is to describe the guidelines for customer call handling and the requirements for separation between the staff handling calls about regulated services and staff handling calls about non-regulated services. The key components include:

- **Staffing** A separate non-regulated service call handling staff including a separate exempt supervisory leader is required.
- **Separation** Personnel devoted to handling calls related to regulated utility service will be physically separated from personnel handling non-regulated service calls through, at a minimum, the use of high height partitions and panels.
- **Data** A data firewall will be created to require customer permission before non-utility related staff can access utility customer records. Acquisition of utility customer usage and billing history data will be with customer permission and consistent with Specific Affiliate Guidelines 9 and 10.
- **Costs** Call center costs will be allocated per the Cost Allocation Guidelines. Any charges made to providers of non-regulated services will be reasonable and non-discriminatory.
- **Process** Attached are summary call handling flowcharts and a script which have been developed to more specifically describe the process to be used in the event that the utility offers an energy choice program to its residential and small commercial customers in the future.
- **Monitoring** The IURC and OUCC will be able to monitor compliance with the Guidelines through the provisions of access to customer calls. The IURC and OUCC (or their agents) will also be able to make on site visits and inspections of call center facilities.
